EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Applicants' attorney, Eileen Lehmann, on 06/20/2007.

Please insert the following to claim 20, lines 1, after "A virtual machine":

----- "executed on a processor" -----

2. The following is an examiner's statement of reasons for allowance:

Claims 20-46 are allowed in view of Applicants' arguments (Appeal Brief filed on 07/13/2004) and decision from BPAI (04/23/2007). The independent claims recite class loader that enables the virtual machine to obtain a set of classes via a network as needed while executing an application program, the class loader converting the classes obtained via the network into a predefined class definition format and then storing the classes into a class structure in a memory such that the classes stored in the class structure are represented as a set of arrays and references of the predefined class definition format; memory manager that selects and purges the arrays and references of the classes from the class structure so as to minimize an

amount of the memory consumed by the class structure and to minimize class loading activities on the network; which are distinguished from the prior art of record. For support, see instant specification pages 9-12, and Figure 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
